The **BANGOR COURIER** is published at the office of the Daily Whig and Courier, every Tuesday morning, at **Two Dollars** a year in advance, or Two Dollars and Fifty Cents if not paid within six months from the time of subscribing.

☞ The publishers will not hold themselves responsible for any error that may occur, beyond the amount charged for the advertisement.

Mr. V. B. PALMER is agent for these papers. Advertisements left with him will be immediately forwarded.

AYER'S CHERRY PECTORAL

For the Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

AND FOR THE RELIEF OF PATIENTS IN ADVANCED STAGES OF CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have faded and been discarded, this has gained ground by every trial, conferred benefits on the afflicted, and they can never forget and produced cures so numerous and so remarkable as to be forgotten.

While it is a fraud upon the public to pretend that any one medicine will indifferently cure—still there is abundant proof that the Cherry Pectoral does not only a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, *Cherry Pectoral* is known as the best remedy extant for diseases of the Throat and Lungs—and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, *Cherry Pectoral* is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the chest. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incendiant to children.

The *Cherry Pectoral* is manufactured by a practical Chemist, and every ounce of it undergoes his own close, and invariable accuracy and care. It is sealed and protected by law from counterfeiters, who cannot, therefore, be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth, as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which time has by repeated and countless trials proved itself to be, and trust by great care in preparing it, with chemical accuracy, of uniform strength to afford Physicians a new agent in which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PREPARED AND SOLD BY J. C. AYER, Druggist and Chemist, LOWELL, MASS.

Sold in Bangor by Mackintosh & Brown, Ingraham & Fuller, also by G. W. Emerson, A. F. Guild, G. F. Sargent, Druggists, Bangor; G. L. Bradley & Co., Bucksport, Wm. O. Poor, Ellsworth, B. Norris, Hampden, and now, and by the Druggists generally throughout the country.

BANGOR AIR-TIGHT COOKING STOVE!

THE best Cook Stove ever introduced, to this or any other people.

Having secured the sole agency of this very desirable Stove, I take great pleasure in offering it to my customers and the public. This Stove was invented expressly for this eastern market, by those experienced and expert Stove manufacturers, Messrs. Tastes & Whittier, who know and have appreciated the wants of this enlightened people. It is now offered to the public with the fullest confidence in its merits, and as superior by all testimony to any other Cooking apparatus ever introduced. Its conveniences for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting, will at once recommend itself to the Ladies. Our very important institution, it is very stout and smooth at all times to be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be ordered from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one not giving entire satisfaction may be returned and the money will be refunded, after 30 days trial.

A great variety of other patterns of cooking Stoves, such as the

Our State, Bay State, Empire State, Granite State, State of Maine, &c.,

All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hamden 3 and 4 Holes, and two Oven—Boston two oven Stoves, Forrest Queen, &c—and that very beautiful pattern of Cottage Parlor Cook Stove, and in fact every variety of Stove for Cooking or warming, worthy of notice, can be found at the Central Street Stove and Furnace Depot.

CULVER'S COAL FURNACE

Is acknowledged to be the very best Furnace for Coal ever introduced.

PROUTY & MEAR'S WOOD FURNACE!

Manufactured entirely of Cast Iron is the most durable and economical Wood Furnace to be had.

Lombard's Kennebec Wood Furnace, of which I sold the past season 10 or 12 and they have all given entire satisfaction. From six to eight cords of dry hard wood is sufficient to warm any ordinary sized dwelling house.

Any of the above Furnaces set up the best and most approved manner at short notice.

Well and Cistern Pumps of all the desirable patterns and sizes. Lead Pipe, Sheet Lead, Sheet Zinc, &c., &c.

PATENTS.

American and Foreign Office

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models and adopted a more expeditious mode of sending them to the Patent Office, *whereby a Patent may be procured about six weeks earlier*, he continues to forward their fees of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents, and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and consulting in respect to them, *matters in general of paramount importance in order to obtain correct specifications and claims*. The experience of sixteen years practice, an extensive collection of rare works, decisions, &c., on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford inventors, desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment.

R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

DR. FONTAINE'S BALM

—OF A—

THOUSAND FLOWERS.

For the Toilet, the Nursery, for Bathing, and many Medicinal Purposes.

HIGHLY perfumed by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston.—It is the greatest luxury a lady or gentleman could wish for the improvement of health, for comfort and personal embellishment, and its delicate soothing sensation, and the delightful softness it imparts to the complexion.

We give a few of the prominent properties of the **Balm of a Thousand Flowers!** already well established by actual experience.

FIRST.—This Balm renders every defect of the Complexion,

And establishes in its stead Beauty and Health, as the time when both, by the changes of age, or freaks of nature, or disease, have been obscured and undermined—it cleanses the skin, and draws to the surface, all impurities, and every species of pimples and blotches, also removes tan, sunburns, yellowness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it clear, smooth, and white.

SECOND.—It promotes the Growth and increase of the Hair, causing it to Curl in the most natural manner.

It cleanses the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD.—It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.

As a DENTRIFICE for *cleansing the Teeth*, it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, ulcers and cankers, and renders the teeth as white as alabaster. For bathing, for suffering infants and for adults, to promote sweetness of the body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more suitable than this Balm. It may be used in colder water, hard or soft water.

Great American Remedy.

FOR COLDS, COUGHS, ASTHMA, CROUP AND CONSUMPTION.

WHY, invalids, do you almost invariably exclaim, look the very best remedy for your complaint, in search of something with a foreign or mysterious, or bracket name? Half of them are made by quacks, or persons having not a tithe of the scientific and practical knowledge, either of medicines, or of the human system, of the author of the above medicine. For dry, hard coughs and for children, with severe stuffed colds, or, with croup, it is invaluable; and I challenge a trial of effects with any Indian, Egyptian, Arabian, English, French, German or any other foreign or domestic preparation, which is now offered to the public for sale, in all the cases for which it is recommended. It was used by Doct Slavin Hardy, its author, for many years with great success.—More than twenty thousand have tried it, and all confessed it, thus why look for better?

WILLIAM AYER, ——

☞ The locofoco leaders seem to entertain that idea that they have a mortgage on the votes of all naturalized citizens, and that at any time they can command their services in voting for their candidates whoever they may happen to be. In the present campaign, with Gen. Scott for the whig candidate of the whigs, a man known to the foreign voters, and whom they cannot forget, many of them intend to exercise the rights of freeman and judge for themselves of the fitness of candidates. This arouses the ire of the leaders. The loco press becomes bitter. The Boston Post pronounces James Egan, Esq., an eloquent Irish Lawyer of Boston, an "impudent foreigner," because he saw fit to make an eloquent argument in Faneuil Hall, Boston, in favor of the election of Gen. Scott.

Professor Fitzgerald, of Ohio, has been grossly attacked, Robinson, also, and many others, even the eloquent Crowley of Hampden has not wholly escaped. So it is, all sound, wherever an intelligent, influential and eloquent advocate among the naturalized voters has taken a noble and patriotic stand in favor of the loved land of their adoption, and the election of the People's favorite and patriotic Hero Gen. Scott, there the bull dogs of detraction and abuse are open mouthed in their vilifications. These leaders and their gangs of defamers, who would blot out every line and word of the glorious deeds written in the history of our country, if thereby they may gain a party advantage, have no measure of patience or decency with a man who will not do their bidding, and vote, without a question, for their candidates.

Thanks to the personal honor of men and to the heroism of the age, this brow beating cannot rope in all the foreign vote. They feel that they are men—citizens of this great country, and that it is their right and their duty to regard the honor and the welfare of the country, as men who own themselves, and to whom is committed such a sacred trust, the Freeman's Ballot.

We find a specimen of this in the case of Professor Fitzgerald, who has been grossly attacked by the Cleveland, (Ohio,) Plaindealer.

On Saturday evening of last week, hundreds of Irishmen met at Cleveland to hear Mr. Fitzgerald's vindication. He triumphantly repelled the false accusations of the calumniator. We have only room for an extract from his eloquent speech:

America! blessed land of my adoption, will you bring upon yourself the curses under which my own native land is groaning? The genius of America is not behind the genius of any other country. In talent it sails aloft, above all the nations of the world. Two great parties are in existence—one the Loco Foco, the other Conservative. If the doctrines advocated by the so-called Democratic party were to be carried out, the citizens of America would present the same physical appearance as the citizens of Europe. The high cheek bones, the sunken eye, the haggard countenance, the miserable sustenance, and the tattered garments would take the place of the present lofty independence of that portion of the community, and the change would be as pregnant with evil as has the same system been in unhappy Ireland. Protection to American Industry should be the watchword of my countrymen. The doctrine of the whigs upon that point is as rational and sound as any man can desire. That protection means no more than proper restriction of the importation of foreign manufactures.

When my countrymen come over here they are led away by wordsoft and euphonious, and often deceived. But you must be aware of one truth, that whatever principles the "bloody London Times" advocates in relation to the government of this country, you should avoid, for you know too well that it will not labor for your interest. Gen Pierce is the favorite of the London Times, and the man whom it most desires to see elected, because his principles are the most congenial to its wants and interests.—Now, what are his principles? Have we any means of knowing? His vote in Congress tells us enough. And can you vote for a man who always lent his influence against the improvement of rivers and harbors? Against granting a pension to the soldiers of the war of 1812? Refused to give the widow of Gen Harrison the year's salary of her husband? Where is the humanity displayed here? God himself promises the widow his especial protection, but Gen Franklin Pierce refuses to give her even the means of sustaining life.

My countrymen, you know what I tell you is true—I will not deceive you—you can trust me. We came to this foreign land because we were oppressed and downtroddon in our own country, by its violent and profligate rulers. We leave our homes which are dear to us as are your American homes to you. Our fathers, mothers, brothers and sisters, we often leave all behind, and seek a home and protection under the flag of a foreign country, and in return for the protection should we not be doing a wrong to ourselves and adopted country, by seeking to elevate to the highest office in the gift of the nation, the man who has always voted against its best interests?

On the other hand the whigs have nominated for the Presidency a man who through a long life has been the abject defender of that loved flag, which protects the oppressed. Can you stand a moment, to consider for whom you shall cast your vote? Can you stand about giving your vote for him who made the British lion crouch humbly in the dust before him? By this voting you will speak to that vile, heartless, black-hearted, bigoted Attorney General of England, in language that will make him shudder and turn pale. Remember the bigot test in New Hampshire, and remember it at the next election.

The Railway of the World.

We have from New Brunswick the most cheering accounts, as previously very briefly announced, of the progress made relative to opening the great line of the world's travel by a railroad through the Provinces of Nova Scotia and New Brunswick, to meet a line running through the State of Maine to connect with the great railway world of the United States and Canada and by an ocean ferry, with the railway system of Europe.

On the 29th ult. the contract between the Executive Government of New Brunswick and William Jackson, Esq., M. P., on behalf of himself and several wealthy capitalists in England, for the construction of a Railway across New Brunswick from the boundary of Nova Scotia to the frontier of the United States, through the city of St. John, was formally signed, sealed, and delivered.

This auspicious and happy event was announced to the citizens of St. John, by the firing of a Royal Salute from two field pieces, and a general state of high gratification pervades the people of that city and Province.

The contract provides for the construction of a first class Railway, in the English style, of the character termed "a permanent road," and capable of being travelled over at the highest rates of speed, up to sixty miles per hour, from Nova Scotia to Maine, an estimated distance of two hundred and fourteen miles.

The price of this road, including stations, rolling stock, and all equipments, complete, is to be £8,500 *Sterling per mile.*

The Province subscribes for Stock in the undertaking, to the extent of £1200 Sterling per mile, not exceeding in the aggregate however, the sum of £250,000 Sterling, to which the Provincial liability was limited by the Money Facility Act of 1851. This subscription for stock will be paid in Provincial Bonds, redeemable in twenty years, with interest at 5 per cent, which bonds the contractors receive at par, as cash. The Province will also loan the company, as the work progresses, under proper restrictions, the sum of £1,800 sterling per mile, in Provincial Bonds, bearing 6 per cent. interest, receiving as security for such loan and interest, a first mortgage on the road and its equipments.

The remaining sum of £3,600 per mile, the contractors will receive in the Bonds of the company, bearing interest at 6 per cent, for which the road and its earnings will be the sole security, subject to the first mortgage which secures the Provincial loan. These arrangements in effect render the contractors by far the largest shareholders in the company, and most deeply interested in its success. The apportionment of the cost of the road now contemplated will be as follows:—

Cost of 224 miles at £8,500 sterling per mile,	£1,904,000
Provincial subscription for stock, limited to	£250,000
Provincial loan, £1,800 sterling per mile,	385,000
Company's Bonds,	1365,000
	£1,904,000

The whole liability of the Province is strictly limited as above. No lands whatever, beyond the right of way over Crown lands, are to be given or conceded to the Railway Company or contractors. The Act which provides for the grant of such lands, in aid of the Railway, is to be repealed.

The line of road from Nova Scotia to Maine is to be wholly completed and in full operation throughout its entire length, by the first day of July 1857.

The contract has yet to be approved by the Legislature, when preparations for commencing the road will be immediately made. The section from the Bend to Shediac will be first taken up and completed as soon as possible. It will be open for traffic about July 1st, 1854. The section from Miramichi to the Bend being easy of construction will be completed sooner than that next to St. John which will be the most tedious and expensive section of the eastern portion of the line.

The New Brunswicker says that Nova Scotia responds to these views, and it will depend upon the Legislature of New Brunswick at an early day to settle the question, and determine whether the great achievement, that these Provinces have so long desired, of bringing into closer union the whole of the vast Continent of America with the Mother Country and Europe, uniting the millions of the one with the millions of the other, developing the resources of the Colonies, binding them with stronger ties to each other and their parent land, and perfecting that system of rapid communication has been so long dwelt upon, shall now be happily and definitively realized.

The ability and enterprise of our Provincial neighbors should quicken the interest in the construction of the Road through Maine, and that it will do so we have no doubt, so that when the Provincial road shall be opened, the trains may pass without hindrance into and through Maine, whose arms shall be extended to receive them.

More Liquors Seized.

Marshal Farnham assisted by Constable Bussell a few days since searched the shop of Samuel W. Estabrooks on Harlow street and found one jug containing two quarts of Brandy, one bottle marked Mc Naughton's Bitters containing half a pint of Brandy, one pitcher containing Brandy, and twenty four bottles of Mc Naughton's Bitters.

In the shop of Wm. Ray they found ten bottles of Mc Naughton's Bitters.

Estabrooks & Ray were both brought before the Police Court on charge of violating the Maine law. Estabrooks fined $20 and costs and appealed. Ray fined $20 and costs $3.62, which he settled.

☞ In Ohio, the Whigs are steadily and energetically at work, and there is no doubt but that she will be able to present claims for the palm equal to those of her two great rivals.—The accessions from the Democracy are frequent and numerous. The adopted citizens, repudiating the demagogues who have so long made them subservient to partizan purposes, are constantly renouncing their allegiance to Locofocoism and proclaiming themselves in favor of General Scott.

The Chicago Advertiser thus compliments one of its correspondents:—"E. Justice, Jr. desires to flourish by the *pen*, we would recommend him to try the hog *pen* next time, instead of the writing *pen*, for he will shine brighter among a litter of pigs than in any other class of *litter-ature*."

A very good picture of an editor's life is afforded in the following extract from "The Personal Adventures of Our own Correspondent in Italy," a work recently re-printed by the Harpers:

"I know of no state of slavery on earth like that attendant upon the newspaper life, whether it be as director or subordinate. Your task never ended, your responsibility never secured, the last day's work is forgotten at the close of the day on which it appeared, and the dragon of tomorrow lurks open-mouthed to devour your thoughts, and snap up one morsel more of your vexed existence. But as successful as the nature of things to be, write with the least possible degree of exertion, be indifferent to praise and lion-hearted against blame, still will the human heart wear out before its time, and your body, if not your mind, exhibit every symptom of dry rot."

William J. Brown, of Indiana, (would be speaker Brown) was recently hooted from the speaker's stand at a Democratic meeting in Louisville, Ky. The *Shelby News*, a Democratic paper, referring to this fact, uses the following plain language:

"We think it was an insult to the people of Kentucky to invite so notorious a rule and corrupt a politician as William J. Brown, to address a Kentucky audience; and it was insufferably the height of satanic impudence and impertinence in Wm. J. Brown to make a speech to Kentuckians. The people of Louisville did right to put the political miscreant down. It would have been a disgrace for them to have permitted him to address them. Devoid of all sense of honor, and an Abolitionist of the Giddings, Preston King, and John Van Buren order, his name is an insufferable stench in the nostrils of all honorable men."

General Scott's Claims Upon Adopted Citizens Canvassed.

This is the title assumed by the Argus for an article to prove General Scott unworthy of the votes of adopted citizens. There are two prominent historical facts omitted in this article.

1st. It neglects to say that the last war was declared chiefly because Great Britain insisted upon the right to impress native-born British subjects into her service, wherever found, even though they had sworn allegience to the United States. To repel this claim, and to secure to our adopted citizens the rights which, as adopted Americans, belonged to them, General Scott peralled his life on many a well-fought battlefield, and still bears in his person English bullets received while thus fighting for the liberty and rights of his adopted countrymen. When did Gen. Pierce ever peril his life or shed his blood for those whose suffrages he now claims as his due?

2d. When on the prison ship at Quebec, the English commanders selected twenty-three Irishmen to be sent "home," to be tried for treason, and to be hung as traitors, Gen. Scott told the cold-blooded representative of English tyranny, that for every one of these Irishmen who should be put to death, an Englishman should be hung. Through his instrumentality, a law authorizing him to do so, was passed. He soon afterward took twenty-three English prisoners, and held them as security for the lives of his twenty-three imprisoned Irish soldiers. The fact was communicated to the British Government, and the Irish-American soldiers were released. When did Gen. Pierce save the lives of twenty three adopted citizens? And yet Irishmen are called upon to turn their backs upon General Scott and to vote for Gen. Pierce!

We let the next essay upon "Gen. Scott's claims upon adopted citizens," we hope the Argus may find room. By these two historical incidents in the Life of the Whig candidate for the Presidency, *Albany Journal.*

Alarm in the Enemy's Camp.

The leaders of the "National Democracy," have become frightened even about Maine, since the unparalleled failure of an attempt to get up a Mass Meeting in this city for Pierce and King. Two days after that tremendous demonstration, the Boston Times gave vent to its "feelings" as follows:

"Democrats of Maine! Go to work!—work! work! You have much to do, and a brief time to do it in! Leave off your 'damnable grimaces,' and begin at once."

This feeling of alarm is rapidly spreading among the hitherto "unterrified," in the State. Read the following from the last Oxford Democrat: The italics are ours.

"Had our party been united in September, and Gov. Hullard re-elected by the majority he was entitled to receive, the whigs would have laid down their arms in despair. But instead of that, *divisions have destroyed our efficiency as a party*, and thereby deprived us of the ordinary *prestige* of success in November. Notoriety so, but knowing *when divisions creep in among us, their influence is not spent in a single election*, they are playing the flattering unction to their souls," that the Democracy cannot harmonize, and therefore there is ground of encouragement on their part. *With suitable exertions*, notwithstanding the dissatisfaction and heart burnings which have had to be encountered in our own ranks, we can come out of the November election not only in triumph, but in a blaze of glory hitherto unparalleled. Oxford can do her full share in accomplishing the work before us, and it is to be *hoped* that every man who does not intend to identify himself permanently in opposition to the Democratic party, will be found co-operating cordially and at once, in well directed *efforts* to carry the State for Pierce and King."

The Lincoln Democrat, commenting on the recent election, says:

"This election has demonstrated, that it the race is not always to the swift or the battle to the strong." There is hardly a spot in the whole battle field of the State, to which we as democrats can point with either much pleasure or pride. We only see how much we have fallen, by looking back to the contests of former years, when the democrats of Maine went into fight shoulder to shoulder, keeping time to the harmony of according action, when none struggled from the ranks to fight in detached squads, or "on their own hook," when no defection or demoralization of our permanent ranks, led over to the enemy, the long enlisted soldiers in democracy. But poorly as we have fought, as sadly as our ranks have been thinned by temporary desertion, all is not lost.

"We hope never to have to record another election so fraught with political disasters as this, and those disasters brought about by those of our own democratic household."

The leaders of the Democracy are beginning to see that Pierce's prospects are desperate in the Union. From present appearances Scott's electoralles acknowledged by many of them to be probable. They say they shall not be *disappointed* in *any* event.—[Ken. Journal.

THE SEASON—THE CROPS, &c. In a recent tour through a considerable extent of the interior of Maine, we were forcibly struck with the beauty displayed in the orchards which everywhere surrounded us. Never before did we see such a profusion of fruit. Immense quantities of the richest and most valuable species of grafted fruit have this year been produced in our State.

The potato crop in this State has this year suffered but little from the rot, and the tops are now almost uniformly green, even at this late season, whereas, had the grasshoppers have left enough of foliage to show that green potato stalks once had green leaves as an appendage. Wherever potatoes have been planted, they have yielded well, and the tubers are dry and delicious.

The corn crop is a good one, and has been permitted by the frost to fully ripen.

Large quantities of carrots and turnips have been raised this year in Maine, the repeated failure of the potato crops having turned general attention to the cultivation of other roots as a substitute.—Lincoln Democrat, Sept. 29.

FROM CAYENNE. By letters received at this port, from Cayenne, dated August 21, we learn that the markets were well supplied with everything. Five French vessels had arrived since the commencement of the month, with cargoes of provisions to a bad market. There was scarcely only of fresh beef, and the government had sent a steamer to Para for a cargo of cattle.

Six hundred more convicts had arrived.—Salem Register.

The most extraordinary discovery in the world is Great Arabian Remedy for Man and Beast.

H. C. FARRELL'S

CELEBRATED ARABIAN LINIMENT.

The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants and odoriferous woods, whence are procured those aromatic gums and balsams of which this Liniment is composed, and by whose mildness, unctuous and penetrating properties it is, when applied, diffused through the whole nervous system, allaying the most intense pain in a few minutes. Try it when high a degree, in perfect analogy are qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted cords, restoring use to the limbs paralyzed for years, and where the flesh has wasted away, leaving nothing but skin and bone, excites a healthy action, causing new flesh to grow out and fill up the shrivelled parts. It restores the synovial fluid or joint water, and this is the reason why it has been so successful in diseases of the joints. In affections of the Spine, Liver, Lungs and Kidneys, the great remedy stands before any other preparation. For opening or enlargement of the spleen, it is a specific. For sty, internal inflammation you will find it gives great relief. It has no equal in the world for Rheumatism. Also, cramp, swelling, stiffness, weak joints, Spine and Chest, pains, wounds, chilblains, burns, sore throat, bites of insects and reptiles, salt rheum, warts, corns, tetter, and indeed nearly all diseases which require an internal application, and many others, are greatly benefited by it. It is used externally with great success in goitre, or swelled neck, Scrofula or King's Evil, Liver Complaint, nervous diseases, &c. For Horses or Cattle, it is as efficacious as in diseases of man. Will cure any case of Sweeney in existence; also Spavin, Splint, Blackgum, Big head, Fistula, Farcy, Full Evil, Windgalls, Bruises, Bruises, &c.

☞ LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. H. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because in having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps, only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. C. Farrell, sole inventor and proprietor, and wholesale druggist, No. 1 Maiden Lane, Peoria, Illinois, to whom all applications for agencies must be addressed. Be sure you get it with the initials H. C. before Farrell's name—H. C. FARRELL'S—and his signature on the wrapper.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by Eli Kimball, Orrtown; French & Hamilton, Dover; Geo Fletcher, Blowgorth; P. O. Fitherly, Hollins. And by regularly authorized agents throughout the United States.

Outrages at Cuba upon American Vessels.

The [illegible] from Havana [illegible] here freely [illegible] ment at Hav[illegible] Landed outrages have been perpetrated upon three American vessels. The Bark Cornelia, Ward, on a voyage from New York, was compelled to anchor, and was detained one day. Two passengers were seized and imprisoned, and the letter bags robbed of their contents.

Bark Elizabeth, P. of Philadelphia, was subjected to same stringent searching.

Extra officers were placed on board, and the state rooms locked by the police.

Bark Childe Harold, arrived 21st, was likewise critically searched, all papers seized, and vessel finally given up to the police. These outrages are committed for no satisfactory reason.

Government delay is losing it many supporters. Gozuron, the Marquis of *Pozas*, and his brother Jose Frias, are both arrested. The British man-of-war Rosamond, which left Havana 28th, refused to hoist her colors, her captain being utterly disgusted at the conduct of the authorities.

Fasciola, publisher of the revolutionary paper, Voice of the People, was garroted on the 28th. He met his fate with composure. His parents, in a neighboring town, were denied communication with him previous to his death. His mother expired shortly after.

Among the letters seized on board the Cornelia, were several addressed to citizens of New York. The writers of these letters had been ordered to appear before the Mayor, that they might be opened in their presence, and failing to present themselves, they would be dealt with accordingly.

LATER.

NEW ORLEANS, Oct. 4.

The Black Warrior brings Havana dates of 25th inst. Disaffection growing stronger every day. Cannes, Captain General, openly denounced. Arrests of suspicioned persons made daily. The Police force had been increased and denunciatory visits were of frequent occurrence. So fearful were the authorities of the least outbreak, that scarcely a vessel reaches port which is not immediately boarded by one or more officers and thoroughly searched.

OFFICE OF THE

Association for the Exhibition of the Industry of all Nations.

NEW-YORK, July 12th, 1852.

THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the city of New York, on the 30th day of May, 1853. The Municipal Authorities have granted to them the use of Reservoir Square, and they are proceeding to erect thereon a building worthy of the purpose to which it is to be devoted. The Association desire to make the Exhibition in fact as well as in name a Representation from other countries as well as their own, of Raw Materials and Produce, Manufactures, Machinery and Fine Arts. To this end they have made arrangements with CHARLES DUPUYTREN, Esquire, late Commissioner of the Austrian Empire at the Industrial Exhibition of London, whose skill, experience and high character offer the most satisfactory security to Contributors from abroad. Mr. Duchek is the authorized Agent of this Association, for all countries other than the Continent of America, and as such has received full instructions. All communications from Contributors abroad must be addressed to him at "The Office of the Exhibition of the Industry of all nations in New York," No. 61 Charing Cross, London. He will also be able to them the nature of the powers given and authority conferred, and will also explain the great inducements offered by this Enterprise to European Exhibitors. This Association will correspond with all schemes in the United States, the Canadas and British Provinces, the West Indies, and this Continent generally, who may desire to contribute to this Exhibition. All such communications must be addressed to "THE SECRETARY OF THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS, New-York." The Agent in any really to receive applications, and it is desired that they be sent in immediately. The office will be given, hereafter, when the Building will be ready for the reception of articles. Application for the admission of Objects to the Exhibition must represent intelligibly their nature and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or Counter, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and applications as to the admission of Machinery, to be so exhibited, in addition to the general description and the requisition for space, must set forth the required Motive Power required. The Association deem it proper to announce that Paintings by Frames will be exhibited. As, notwithstanding the magnitude of the proposed Building, there must necessarily be a limitation of space, the Association reserves the right to modify or reject applications, but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any case one season, during which Objects shall, severally, form part of the exhibition. Exhibitors are requested to designate an Agent, to whom their contributions shall be delivered when withdrawn from the exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the Direction of Capable and Eminent Persons.—With this statement the Directors invite the co-operation of the Productive Intellect and Industry of their own and other countries.

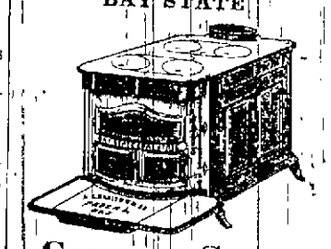
THE BEST

STOVE in the Market!

EXPERIENCE has proved satisfactorily, and undeniably that the

BAY STATE



COOKING STOVE,

(For which the subscriber is Sole Agent,) is the very best Cooking Stove ever invented, surpassing in its cooking apparatus—boiling, baking, baking &c, &c. all competitors, as well as in smoothness and thickness of Castings durability and economy The fact that more than 25,000 are sold per annum is of itself proof positive of its general excellence

Over 300 have been in use in this city and vicinity for upwards of three years without requiring repairs, for which purpose the undersigned has castings constantly on hand

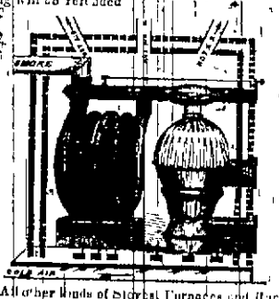
One great advantage possessed by the Bay State over all other Stoves, of whatever description, (on which advantage public attention is particularly invited) and which enables it to bake equal to the very best brick oven, is the improved and durable and economical character of its fire plate being of great thickness and composed wholly of iron casting requiring less fuel than other Stoves, and baking with great evenness and expedition—This advantage will be appreciated by a family of housekeepers and cooks.

The Bay State is of six sizes, varying from $15 to $60

THE WARRANT!

TAKE NOTICE.

Stoves not proving satisfactory after a fair trial of 30 days, the price paid and expenses of returning will be refunded



All other kinds of Stoves, Furnaces and Ranges, together with Registers, Ventilators and Copper Steel Sheet Iron and Tin Ware constantly on hand and for sale at reduced prices

age's Specific.

NEVER failing remedy for thoroughly eradicating diseases of the Urinary Organs, such as Gonorrhea, Gleet, Whites, Strictures, Stone in the Bladder, &c., and now put to be once and to be universally esteemed. The proprietors would respectfully caution those troubled with the above annoying complaints, to beware of those quackery nostrums which are palmed in upon them, without the slightest knowledge of the structure of the human system, recommend for every disease. Lesage's Specific is only intended for the cure of Private Diseases and the thousands that have sent their testimonial certificates vouch for its efficacy, while the better it is known the greater is the demand for it. How different from the various quack medicines which, when the unhappy patient has once used, no inducement can ever make him again.—Lesage's Specific has been the remedy depended on by every class, the senator, the lawyer, the mechanic, the seaman and the dashing cyprian have all tried it and found it truly the good Samaritan in the hour of trouble.

Dr. Darby annexes extracts from some of his certificates:

U. S. Frigate Cumberland, 1851.—I contracted a disease at Naples, and tried all the remedies suggested by the most experienced surgeons without success. Lesage's Specific has restored to me the health I long despaired of.—J. W. W.

Louisville, Ky.—There is much pleasure in stating that Lesage's Specific has cured me of a gleet of 22 months duration.—H. O. D.

Bangor, Me.—After having used two bottles I found myself cured of an old standing complaint in six days, and shall not fail to recommend you should I know of any trouble like I was.—John Brown.

Sold by RALPH H. DARBY, Apothecary, No. 21 Broadstreet, Boston. Price $1,00 per bottle; two bottles $1,75.

Bigelow's Alterative.

A CERTAIN cure for DYSENTERY, DIARRHEA, CHOLERA MORBUS, and all Summer Complaints. GEORGE W. BELCHER, Proprietor, 190 Hudson street, New York.

For children who are teething, and Cholera Infantum, this medicine stands unrivalled. It may be used with perfect safety both by old and young, and when faithfully administered it has never been known in any case to fail of a speedy cure. Unlike other medicines, it corrects the bowels, and when in a few hours the patient is restored to his accustomed vigor and health.

We append the following testimonials:

I have used "Bigelow's Alterative" in my family, and have never found it to fail, when all other remedies administered by and under direction of physicians have proved ineffectual. I think it a perfect corrective for Dysentery and all Bowel Complaints.

GEO. W. BERNER, 47 Wall st.

New York, March 22, 1852.

We can add our testimony to that of others of its great efficacy in our own case, where prostrated to an alarming degree by Bowel disease. It was the only medicine that gave relief, and now is always kept in the family.

Editor of the N. Y. Baptist Register

Utica, April 15th, 1852.

Bigelow's Alterative," advertised in another column of this paper, is probably the best cure for Dysentery, Diarrhoea, &c., &c., that has ever yet appeared. We seldom make a part of exciting patent medicines, and for the very good reason that most of them are entirely undeserving. I prove it but we have hurt to use such unfavorable and respectable authority, that the above "Alterative" is all, and more than all, it professes to be; that we cannot do less than make mention of it in this way to our readers. All that we ask of the most scrupulous in such matters is to read the Certificates embodied in the advertisement, and then, judging from the high standing of the parties (whom we know) promptly and publicly to certify, candidly to say whether a remedy so endorsed, is worthy of attention or otherwise. We have more to say of this remarkable preparation.

TO PHYSICIANS AND THE AFFLICTED!

I HAVE received this day a new supply of GOLBERGER'S

Galvano-Electric Chains,

which are recommended by all the first Physicians in Europe, as the certain remedy for *Gout, Rheumatism and Nervous Complaints* when all other Physicians, Dr Wm. Wesselhoeft, Brooklyn, Dr. John Barnhill, and Dr John Eskel, in Boston; Dr John Vandeburg, in New York, Dr. McMunn, in Baltimore, etc., *have generally tried them!* More than 1000 testimonials of above Physicians, *which are confined to the government of Britain*, may be read in the different Magazines in my Agents. All persons affected are respectfully invited to call on my Agents, and satisfy themselves personally of the truth of these assertions.

I recommend these Chains to all afflicted, as there are only new and extraordinary sources of health offered by them.

The genuine Galvano-Electric Rheumatism Chains of Golberger, are to be obtained of the following Agents:

It is the only infallible remedy for NERVOUS, HEAD and MIND COMPLAINTS—the quickest physic so long sought for and never before found, the only agent that can adequately cure MIND DISEASES, will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of Self Destruction, fear of Insanity, &c. It will restore to appetite, renew the health of those who have destroyed it by improper Excesses, or such practices. If this liquor shall be found that these disorders, symptoms, &c., are wonderful. This liquor is not the fact.

DR. MORSE'S INVIGORATING CORDIAL, is a constitutional cure for these complaints, relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the parties concerned will testify, which can be seen.

Dr. Woodward, of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus:—It gives me pleasure to inform you that another patient, while in Boston, procured some of your cordial. He tells me that he has not had any emission since he commenced taking it, while before he had two or three a week. When he came to us, says Dr. W., I thought it largely possible for him ever to regain his full strength. I prescribed the usual medicine only, in these cases in the hospital, but they gave no effect. He then went to Boston and purchased some of your Cordial. I had no faith whatever of its curing the complaint, but strange, it has had no emission since, although it is now three weeks. I am satisfied the half dozen bottles I think will cure him.

Another says—"I had consulted several distinguished physicians, Dr. Bonn said "I could not be cured, others prescribed this thing and that, but I found no relief until I procured some of your Cordial. I must say it completely cured me."

Another says—"I was surprised at the effect your Cordial had. Why, I had not heard of it before! It would have saved me so much expense, besides years of mental and bodily suffering."

☞ CAUTION—Ask for Dr. Morse's Cordial and take no other, as there are worthless imitations which, for its unrivalled excellence, fame and popularity, have been brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., (and try only this.)

It is put up in quart bottles, with full directions, at $1 per bottle; 2 bottles $5; 6 bottles $10; and $24 per dozen.

N. B. Important advice accompanying each bottle.

Nervous, Personal and Venereal Diseases, and complaints requiring many confidential consults, D. Morse personally, or by letter, (post paid) as his office, 78 Sudbury street, Boston. The necessary advice and medicine, for the regular expense of such, (probably will be twenty dollars) sent to the writer's address.

Dr. M. is prepared to warrant a perfect cure in every case or take no pay.

Prepared by Dr. Morse, M. D., principal office, 103 Broadway, New York city, sold in Bangor by the Dr. New England Office, 78 Sudbury street.

And sold in Bangor by D. BUGBEE, No. 5 Kenduskeag Bridge, in Portland by Edward Mason, Mid Street.
